25X1

[redacted]

Food and luxury food, including live animals and animal products, constituted about 71 percent of the total shipments. Presumably, some of the unidentified shipments were also food and luxury food items. A total of 493 tons of sulphuric acid, 496 tons of caustic soda and 885 tons of petroleum coke was shipped. A total of 1,623 tons of bauxite, or slightly less than 10 percent of the total volume of imports, was shipped to the Lautawerk. It appears that, including the Hungarian bauxite deliveries, the Lautawerk received approximately 10,000 tons of bauxite in December 1951. [redacted]
